

## Federal Crop Insurance Corporation, USDA

## § 457.101

buffer zone, and acreage not maintained under organic management.

(d) If you claim a loss on any acreage insured under an organic farming practice, you must provide us with copies of the records required in section 37(c).

(e) If any acreage qualifies as certified organic or transitional acreage on the date you report such acreage, and such certification is subsequently revoked by the certifying agent, or the certifying agent no longer considers the acreage as transitional acreage for the remainder of the crop year, that acreage will remain insured under the reported practice for which it qualified at the time the acreage was reported. Any loss due to failure to comply with organic standards will be considered an uninsured cause of loss.

(f) Contamination by application or drift of prohibited substances onto land on which crops are grown using organic farming practices will not be an insured peril on any certified organic, transitional or buffer zone acreage.

(g) In addition to the provisions contained in section 17(f), prevented planting coverage will not be provided for any acreage based on an organic farming practice in excess of the number of acres that will be grown under an organic farming practice and shown as such in the records required in section 37(c).

(h) In lieu of the provisions contained in section 17(f)(1) that specify prevented planting acreage within a field that contains planted acreage will be considered to be acreage of the same practice that is planted in the field, prevented planting acreage will be considered as organic practice acreage if it is identified as certified organic, transitional, or buffer zone acreage in the organic plan.

### § 457.9 Appropriation contingency.

Notwithstanding the cancellation date stated in the policy, if there are insufficient funds appropriated by the

Congress to deliver the crop insurance program, the policy will automatically terminate without liability.

[59 FR 45972, Sept. 6, 1994]

### § 457.10–457.100 [Reserved]

### § 457.101 Small grains crop insurance.

The small grains crop insurance provisions for the 2004 and succeeding crop years are as follows:

UNITED STATES DEPARTMENT OF AGRICULTURE

Federal Crop Insurance Corporation

#### *Small Grains Crop Provisions*

If a conflict exists among the policy provisions, the order of priority is as follows: (1) The Catastrophic Risk Protection Endorsement, if applicable; (2) the Special Provisions; (3) these Crop Provisions; and (4) the Basic Provisions with (1) controlling (2), etc.

#### 1. Definitions

*Adequate stand*—A population of live plants per unit of acreage which will produce at least the yield used to establish your production guarantee.

*Harvest*—Combining or threshing the insured crop for grain or cutting for hay or silage on any acreage. A crop which is swathed prior to combining is not considered harvested.

*Initially planted*—The first occurrence of planting the insured crop on insurable acreage for the crop year.

*Khorasan*. The common name for a variety of wheat (*Triticum turanicum*) that is marketed under trademarks such as Kamut. Khorasan is considered to be spring wheat for the purposes of this policy.

*Latest final planting date*—

(1) The final planting date for spring-planted acreage in all counties for which the Special Provisions designate a final planting date for spring-planted acreage only;

(2) The final planting date for fall-planted acreage in all counties for which the Special Provisions designate a final planting date for fall-planted acreage only; or

(3) The final planting date for spring-planted acreage in all counties for which the Special Provisions designate final planting dates for both spring-planted and fall-planted acreage.

*Local market price*. The cash grain price per bushel for the applicable quality level indicated below and offered by buyers in the area in which you normally market the insured crop. The local market price will reflect the maximum limits of quality deficiencies allowable for the applicable quality level indicated below. Factors not associated with the specified quality levels, including but not
